

Facilitating the "7th Lesson"

In Transformation Tables, there are 6 lessons in Value Tables and 6 lessons in Action Tables. The 7th Lesson is an optional transitional meeting for facilitators to host after completing the 6th lessons of each Transformation Tables phase. The purpose of hosting this meeting is to create space to recap the experience so far, to have meaningful conversations without a time limit, and to set the stage for where the journey is headed.

Questions to Ask Your Group:

- How is your Action Step from Lesson 6 going?
- Are there any Action Steps from previous lessons you are still taking?
- Which lesson did you connect with the most and what did you learn from it?
- How do you plan to apply these lessons in the future?
- Are you ready to become a Facilitator?
- Who do you know that you can bring to the table?
- Why do you want to change your world?
- How can our group begin to plan for taking action to change our world?
- Do we as a group want to create an Action Plan Together?
